Delano moved to adopt November 12, 2015 minutes. Anderson seconded, and motion carried.

5. COUNCIL LIASION UPDATE

Co-council liaisons not present. Chair Hurford stated that he would like council to review the language used in resolution 64-2015 which adopted the incentives on all vacant land in the city. Within the resolution it states "vacant lots" and not "vacant land". In the first paragraph of Exhibit "A" it should read, "incentives for new development" and not "incentives for new and existing businesses." EDAC committee member Delano stated that EDAC's original proposal to council was to include an incentive to all new or redevelopment activities within the city, and not just to those building on vacant lots.

Chair Hurford asked staff if they would be able to provide a mock performa of a building permit with a valuation of \$2 million to see the cost of fees being waived. Senior Planner, Palmer stated that this is something that can be done prior to the meeting in January.

5. REVIEW OF COUNCIL APPROVED WORK PLAN FOR 2015/2016

Halsey Corridor Project

Senior Planner Palmer gave a brief update on the Halsey Corridor project and passed out a flowchart of the work that will be underway over the next couple of month prior to the project kick-off. Fairview staff met with Metro to discuss the grant IGA. Metro provided an extra \$12,000 in funding for Fairview to hire an additional staff person to help manage the grant because they know that we have limited staffing. It is expected that this additional staff person will help finalize the Metro IGA and once this is signed this person will also help develop the Request for Proposal that will be used to seek a project consultant. The Metro IGA is expected to be signed in early January and the RFP to be distributed in February. It is also expected that a three city IGA to be drafted in February before the project consultant is chosen. It is envisioned that all three cities will be participating in the selection of a project consultant.
